It took me about 2 hours to assemble, but it was simple and simple. It was very important to follow the guide that is inside one of the inner boxes. All the necessary tools (screwdriver, wrench...) are also provided along with parts. We recommend this crib, for the price paid, we are very happy. Helpful? The baby is not yet here, but, the crib is collected and feel very firmly, choose the cherry color and it fits perfectly in the room. The author is hayneedle.com client. Helpful? It was like a describe very sturdy and well put together a very beautiful love color worth the price. Helpful? Saw this crib in another store but they didn't have it in stock and they suggested that I order it on the line from them. When I decided to do it I found it on the hayneedle instead and ordered it from them. They sent it much faster than I expected and it arrived without problems. We still haven't built it yet as a baby should in October, however the box is not damaged and I don't see any problems. The author is hayneedle.com client. Helpful? We love the look/style of this crib and also bought a matching dresser. We like that it is a piece of furniture that will grow with our baby as soon as we get the toddler rail and side rails. Pretty easy to assemble, and feels very sturdy. We also love the extra storage behind the drawers of a piece of table blank. The author is hayneedle.com client. Helpful? We bought this for our baby due in May. It went along quite easily and quite sturdy. We ended up with this after we bought another brand which was pretty flimsy. The color is perfect and we can't wait to use it. I rated it 4 stars just because we haven't used it yet. Helpful? It was kinda hard to assemble at first and the paint peeled off in some parts, but at the end it came out really nice.. Helpful? We purchased this crib online and the pickup storage site only allowed me to pick it up with a valid document. We followed step-by-step instructions and in less than two hours we put this beautiful bed together! It seems to be great value for the price! Helpful? I love this crib/change combo, it's nice and sturdy, but like others said, the parts are not marked. It would go much faster if they would mark the pieces. Also, the screws are not white and they do not include these little white plastic pieces to hide the equipment ... I'm going to draw them so they mix in I guess. If they had made these changes it would have been ideal! Author - hayneedle.com Helpful? December 5, 2018 Actually reason rated 4 stars because our baby hasn't used it yet, its absolutely beautiful and great for a small space. Everything comes comes Very nice and comes with parts in a separate box when you are ready to convert to a full sized bed. I absolutely love this crib so far. Just waiting for our baby to get here to actually get use out of it!
