This guide provides instructions for troubleshooting and repairing this engine in the chassis. Procedures for the restoration of components and assembly are provided in the management of the auto shop. The guide is organized to guide the service specialist on the logical steps to identify and eliminate engine-related problems. The repair procedures used in this maintenance manual are recommended by Cummins Inc. Some maintenance procedures require the use of special maintenance tools. This guide is divided into sections. Each section is equivalent to the group used in the Cummins movie system. Some sections contain reference numbers and procedure numbers. Reference numbers provide general information, specifications, diagrams, and maintenance tools where applicable. Procedures numbers are used to identify and refer to specific repair procedures to fix the problem. This guide does not contain electronic troubleshooting fuel systems. Use troubleshooting trees in this guide if there are no electronic fault codes. This guide is designed to allow tree troubleshooting areas to be used to determine the cause of the engine problem. This guide includes two PDF files. All pages are printed and readable. Adobe PDF Reader should be used to work with software. Content: Section 1 - Introduction on Manual Acronyms and Reduction General Cleaning Instructions General Repair Instructions General Safety Instructions General Safety Instructions How to use manual illustrations Symbols Section E - Engine Identification Scheme Identification Section F - Introduction to the Air Entry System - Overview of the Full Engine - Overview of the Compressed Air System - Review of the Cylinder Block - Overview of the Electric Equipment - Overview of the Engine , cooling system flow diagram, exhaust flow diagram, fuel system flow diagram, Lubricants Fuel System - Review of Injectors and Fuel Lines - Review of the Lubricants Oil System - Review section TS - Elimination of symptoms symptoms symptoms of trouble symptoms Charts Review Section 0 - Full Engine, Connection Rod Bearings, Key Bearings, Pull Camshaft Camshaft Bearing Support Camshaft Bushings End Of Camshaft Camshaft End Of Clears , Front (Crankshaft installed) Crankshaft Pulley Crankshaft print, Front Crankshaft Print, rear cylinder block block cylinder block and liner cylinder seat Block Counterbore cylinder Head Mounting Capscrew Cylinder Hole Gear Cover Cover Drive Bushing Gear Cover, Front Piston Pistons and Connecting Rod Assembly Piston Rings, Viscous Section 2 - Cylinder Head - Group 02 Cylinder Head Head (External) Overhead Set Rocker Lever Assembly Rocker Lever Cover Lever Housing Maintenance Tools Section 4 - Cam Followers / Tappets - Group 04 Cam Followers Assembly Push Rhodes or Tube Service Tools Section 5 - Fuel System - Group 05 Fuel Fuel Pump Fuel Pump Fuel Pump Check Valve Fuel Pump High Speed Fuel Pump Damper Fuel Pump Throttle Fuel Pump Throttle Fuel Pump Power Fuel Pump VS Throttle Shaft Housing Fuel Shutoff Valve Service Tools Stall Speed Test VS Governor Adjustment Screw Sealing Puck VS Governor Idle Spring Section 6 - Injectors and Fuel Lines - Group 06 AFC No Air Check Air in Fuel Cylinders Fuel Refrigerated Fuel Drainage Line Restriction Fuel Filter (Spin-On Type) Fuel Entry Fuel Entry Restriction Fuel Lines Supply Of Injectible Service Tools Static Injection Timeline STC Oil Control Valve (Mechanical) STC Oil Delivery System Diagnosis STC Oil Delivery System Blocking STC Viscosity Sensor Section 7 - Lubricant Oil System - Group 07 Lubricants Oil and Filter Analysis of Lubricant Oil Pollution Lubricant Oil Grease Oil Transfer Housing Grease Oil Dipstick Residential Lubricant Oil Filter (Spin-On) Lub Oil Filtering Oil The filter bypass Valve lubricating oil filter Head lubricant oil High pressure Reller Valve lubricating oil leaks lubricating oil grease oil pressure sensor lubricant oil pressure regulator oil (home rifle) Grease oil pump Grease Oil Oil Pump signal tube lubricating oil pump signal tube orifice lubricating oil system lubricant oil system Diagnostics oil temperature Gauge lubricating oil lubricants Thermostat Oil Transfer Tube Grease Oil Viscosity Sensor Service Tools Section 1 Cooling System - Group 08 Coolant Filter Coolant Filter Head Coolant Filter Valve Coolant Temperature Coolant Coolant Thermostat Cooling Thermostat Corps Cooling Plant Thermostat Print Coolant Coolant Lines Coolant System Cooling System - Air or Gas Combustion Test Drive Drive Belt , Cooling Fan Drive Clutch, Electric Clutch Fan, On-Off Fan Clutch, Viscous Fan Hub, Belt Driven Fan Shroud Build Fan Spacer and Pulley Fan, Cooling Radiator Radiator Radiator Pressure Press Shutter Build Heat Pump Heat Pump Water Pump Water Pump Water Pump Water Pump Idler Assembly Section 9 - Drive Units - Group 09 Accessory Drive Accessory Pulley Accessory Drive Pulley Accessories Drivevee Wear Sleeve Services Air intake and exhaust charging System Charging Cooler Services Turbocharger Turbocharger Axial Clearing damage turbocharger Print Leaks Ductant Radial bearing clearance turbocharger Print Leaks Leaks Section 11 - Exhaust System - Group 11 Exhaust Manifold, Dry Exhaust Limits Section 12 - Air Compressor System Carbon Compressor Buildup Air Compressor Cylinder Head (Holset qE Models) Air Compressor Cylinder Head (Holset SS and E-Type Models) Air Cylinder Compressor Head (Holset ST Models) Air Compressor Pin Bore Wear Air Compressor Unloading and Valve Air Assemblage Governor (Air Compressor Pumps Continuously) Air Governor (Air Compressor will not be a pump) Air Leaks Alternator Service Tools Starter Magnetic Starter Solenoid Starter Switch Starting Motor Section 14 - Engine Testing - Group 14 Dynamometer Working Sheet Engine Run-In (Chassis Dynamometer) Engine Run-In (Engine Dynamometer) Engine Engine Run-In (Without Dynamometer) Engine Testing (Chassis Dynamometer) Engine Testing (Engine Dynamometer) Engine testing (Portable Dynamometer or Loading Bank) Service Tools Section 16 -
